Congratulations! You're now a FutureLab mentor! Inbox ×

HALIZA MUNIR <haliza@futurelab.my> Wed, Aug 16, 10:52 AM

to me

Dear Ganesh Kumar Manokara,

We are thrilled to inform you that your application to become a FutureLab Mentor has been approved!

Your profile and qualifications have been thoroughly reviewed, and we were impressed by your experience and dedication. Hence we have decided that no interview is necessary, and your profile has been **approved** straightaway!

Watch our Mentor Onboarding Video:
Kindly spend around 20 minutes to watch the onboarding video **HERE** to learn more about your roles & impact as a FutureLab mentor as well as navigating the platform to connect with mentees for 1-on-1 sessions.

Please be sure to **complete your mentor profile** and **set your mentor availability** right after watching the onboarding video!

What's next?
We encourage you to give a shoutout through a LinkedIn post, tagging us (@FutureLab.my), to raise awareness of your new journey as a FutureLab mentor. This will help broaden your reach and connect with potential mentees who can benefit from your expertise.

Government Agency

Appointed as a mentor of Future Lab (2022: The Best Brand)

FEEDBACK

AMRIT MURALIDHARAN

founde of complement a acantecl candle business

Coach GK is a brilliant instructor who dissects marketing right down to the building blocks. I love his application focused approach which has enabled me to cligest new theories better. He tailors the class content to his students' needs oncl gives examples thot wecoulcl use for potential job applications and businesses. He has truly kept my brain juices flowing throughout class session through his captivating teaching style. Definitely a go—to digital marketing guru to take your marketing strategies to the nezt level.

The program with coach Gk has been insane! I'm genuinely out of worcls! Every clay I leave his sessions learning something new and fulfillecl. I love his creative content creation approach that makes his students learn out of their comfort zone to succeed. Previously I took port in a start—up incubator and I must say thot the learnings thot I've obtained from coach GB's closs ore for more valuable and robust compared to whot I learnt in the incubator. He guides you throughout the entire process and provokes an inquisitive nature in everything that you do. Most recently, he created a very comprehensive set of slides which encompass topics ranging from keyword planning, cost per clicks and click through rates. I learn tons about what affects the quality score of a Google ad and I'm certain that I'm on the right track to become a robust digital marketer. .

CHAN CHIA LYNN

cofounder 6‹Exgctidve Director, Colqwder of Tinker EduRoy, wMch focuses on eorly chilAood education6 Ezectittug Dlrector of Dignlfy6 services

Day 4 with Mr Ganesh the most important thing I”ve learn from him is fir\d be right person texpert) to teach the knowledge you want to learn. lie attending other teaming platforrtss before to learn some knowledge but I dicIn't get os much information like I get fzom him. As well, Mr Ganesh’s teaching metNod is very interesting, every point he soicl is a "now I krsow" momenC

As I learn Detter through practical, I”m glad that I managed to get this opportunity to learn from him even the class is online. With bite-sizecl video, summarizing key points, tons of real examples, on the spot practice, it helps me a lot to learn about Digital Marketing. He helped me to visualize what is Digital Marketing is oDout and help nseto understand my own business direction better.

Thank you Mr Ganesh.

ANDREW YEW JIA-HAUR

Founder. An qspîûng startup witĥq among digital and contæit morkeông bockgroœid

My first impression of the first two days of the program was that of a "boot camp". We were going back to basics, without touching any digital marketing tools at all. Then, by Day 3, it all made sense! Ev**erything that didn't seem to make sense before (creating the sentiment map and the captions) its use case**. All digital marketing tools operate under the same core principles - sentiment, problems, solutions, value proposition, USPs, etc. It was just a matter of filling in the blanks. **With the foundation built, the skills can be applied anywhere.**

The Google Ads module also helped make things simple for me to enter and try the platform. **I initially thought that Google Ads was a complicated to handle, but Coach GK presented that it is actually a simple especially with the previous lessons helping to provide a lot of contexts.** Super useful and helpful for anyone looking into Digital Marketing!

Come to Day 5, I had a much better understanding on applying what we learned over Days 1 and 2 into practice. Now, we also added strategy into the mix - identifying areas of opportunity that we can exploit by targeted campaigns. **Everything from sentiment, captions and value was to prepare us for the actual marketing - to come into the battlefield fully equipped, and not entering it blind. We want to marketing spend to good use, so it was important that all those things were covered.**

Tinitially tr›ougr›t the program would jet be obout usi IN tools, but T”m glad ź was so ooh more tin UI No '.' I No ve Łłne Łool s and be mindset. If iŁ wa s jest Łhe ŁooT s I comld No ve goŁten by ƀat T '.'oeIdri't łn‹ove Aken the **business to the next step.**
